# WE ARE MÉDECINS SANS FRONTIÈRES

MSF is one of the world's leading **independent international medical humanitarian** organisations. It provides **medical assistance** to people affected by conflict, epidemics, disasters, or exclusion from healthcare **worldwide**.

MSF teams are made up of health professionals, logistic and administrative staff - bound together by **our charter**. **For more than 50 years**, MSF launches its operations in areas where there is no medical infrastructure or where existing one cannot withstand the pressure to which it is subject.

**We provide quality care:** MSF rejects the idea that developing countries deserve third-rate medical services.

**First and foremost medical actions:** The notion of quality care for the individual patient is central to MSF's humanitarian objective.
