

# Our History

- Our association was founded in 2013, during the Revolution of Dignity, in order to bring together the Ukrainian community in Luxembourg and facilitate the organisation of various social and humanitarian actions for the benefit of the people of Ukraine
- LUkraine ASBL is a completely apolitical organisation. Our members work on an unpaid and voluntary basis. The vast majority are professionally employed but devote much of their free time to work with the organisation
- Our first project, UAmbulance, was one of the most difficult in terms of preparation and implementation, but it was a resounding success. With the mediation of the Honorary Consul of Ukraine in Luxembourg, we obtained a specialised ambulance and delivered it to the war-torn city of Slovyansk, along with various life-saving medical products and equipment.
- With time, we branched out and also explored cultural and educational projects in order to give Ukrainians in Luxembourg an opportunity to express their national identity to the rest of the international community, as well as promote Ukrainian culture: a Ukrainian Sunday school, traditional dance group, film screenings and participation in the Festival of Migration and International Bazaar.
- One particular project that has to be singled out was the event held on October 15, 2018. “Let’s light a candle in memory” was dedicated to the Holodomor of 1932-33, and organised in Luxembourg by Ukraine asbl. The event was attended by the then-Foreign Minister of Ukraine, as well as ambassadors of Germany, the Netherlands, and other members of the Diplomatic Corps. This was, and still is, a crucial issue for us, as we are petitioning the Government of Luxembourg to recognise the events of 1932-33 as a genocide against our people.
- In 2019, we collaborated with the NGO WEGA, as well as the Ministry of Foreign Affairs of Luxembourg in order to realise a project for the benefit of individuals with special needs in Ukraine. The goal of the project was to restore a farm in Ukraine and thus create a facility where such individuals can learn trades skills and reintegrate into society. The project was completed in December of 2021, which brings us to current events

# Our Mission

- Since the 24 of February of this year, our people have been locked in a deadly struggle for survival – the aggressor has stated that one of their goals is to effectively eradicate the national identity that has been mentioned previously
- As of now, our priorities have shifted and we are focusing entirely on helping the thousands of wounded, and millions of refugees which can be blamed solely on the Russian invasion. In more specific terms, our goals are as follows:
- To provide humanitarian assistance to the people of Ukraine by sourcing and providing the most necessary equipment, materials and medicines in order to save as many lives as possible. We are working on this through donations and close cooperation with Hopitaux Robert Schuman, with ten trucks of humanitarian aid, including medicine, already sent.
- To do everything possible in order to accommodate Ukrainian refugees within the Grand Duchy, in close cooperation with all of the implied governmental structures. We promote integral development of temporary displaced Ukrainians in Luxembourg via self-organised events and throughout close collaboration with local non-profits and governmental institutions.
- To raise awareness of our goals and call for help. The Ukrainian people want an end to the war, so that they can rebuild their country following the best practices of the EU and become a fully fledged European partner. But first we need your help.
